This guide offers a step-by-step approach to:

**Login** (page 2)

**Navigation around the site / Contact us** (pages 3 - 6)
- Games
- Extras / News
- Site map

**Teacher zone** (pages 7 - 10)
- Subject planners
- Record keeping & assessment documents (all of UK)
- Search by subject

**Parents** (page 11)
- User Guide & Log Book / Tracking progress
**Login to GridClub**

1. Go to [www.gridclub.com](http://www.gridclub.com) and click on the green login button.

2. Enter your username and password into the two boxes and then click ‘LOG IN’.

3. You are now inside the member’s area, on the Member’s Homepage

**Note:** If you are on a school trial, you will log in to a different homepage.
NAVIGATION

You’ll see the main navigation bar at the top of the screen - next to the GridClub logo. This bar appears on the member’s homepage and most of the pages across the site. Each of these buttons takes you to a different area of the site.

You can always get back to the main homepage by clicking on the GridClub logo in the left hand corner.

Most often, children will go straight to the ‘GAMES’ area to find the activities they want. There’s also a full index of all of the GridClub activities on the ‘SITE MAP’.

CONTACT US

If you look to the bottom of the screen, you’ll see a ‘Contact Us’ link. If you go to this page, you can email us any questions and we’ll respond as soon as we can.
The 12 zones each represent a subject.

On scroll over, the subject title will appear. You can click on this and all of the available activities will appear to the right of this frame.
EXTRAS

EXTRAS contains sites such as ‘Yo Zone’, which do not directly fit a specific area of the curriculum and ‘What If’, which is cross curricular and covers the ten key subject areas. You will also find ‘Fact Gadget’ here.

NEWS

There’s both a kids’ and teachers’ section - these contain up-to-date information on relevant topics. We update the NEWS regularly.
Every activity is set out on the SITE MAP.

This is a quick way to find a game - if you know what you are looking for, or if you want to view all of the activities on one page.

The image here demonstrates how the SITE MAP looks - it is broken down by subject area. You can enter the game by clicking on either the picture or the title.

For more details on each activity—including lesson plans, assessment and planners, you can look in the TEACHER ZONE.

You can find more information on the next page...
The TEACHER ZONE is accessed via the TEACHERS’ homepage (see image below). You will still see the top navigation bar that takes you to the other sections of the site.

The menu on the left (see image) provides links to descriptions of the activities via ‘search by subject’ and via ‘lesson plans’ and ‘worksheets’, which are all produced by practising teachers.

**Subject Planners** for English, Maths and Science that link the activities to year groups

**Assessment Sheets and record-keeping documents** for teachers and pupils, relating to all of the English and Maths content
The Subject Planners

The Subject Planners display the content relevant to each year group.

Choose your age group and then search by subject (English, Maths, Science) and theme. Click on the GridClub title (in red) to open up the activity in a new window.

Use the advice in the Planners to pinpoint the right level in any activity.

The Assessment Sheets

The Assessment Records cover English and maths for each year group and include:

- a Record of Achievement for the pupils
- over 50 Assessment Papers, with answer sheets
- a Class Record sheet for the teacher
Search by subject

There are two ways to search the content in this area.

1. Search by school subject (eg English). Click on the subject name and this opens up a page to reveal all of the titles. Click on the title to reveal a description and supporting information, including links to any additional materials like downloadable sheets.

2. Search by topic or theme (eg Habitats). Find the relevant topic and click on the + sign beside the ‘curriculum area’. Click on any one of the activities and you’ll reach the same supporting information pages as in option 1 (see above).
To begin with we recommend you go to the PARENTS INFO area just above TEACHERS on the navigation bar.

**How can I track my child’s progress?**

1. Use the **User Guide and Log Book** to find age appropriate activities and levels. Print off the cover and relevant pages to keep a record of activities attempted or completed. Note that many activities have their own record of achievement.

2. At the end of a session you can click on ‘history’ in the browser and see a record of the activities visited.
